USE OF VEHICLE

“University Vehicles” refers to all state owned/leased/operated vehicles, and are to be used only for authorized university business. These vehicles shall be operated only by those university employees and students specifically authorized to do so by a department Dean, Director, or Chair or designee. It is the responsibility of the department Dean, Director or Chair to inform and enforce proper use and ensure that only duly licensed, registered and trained drivers operate University vehicles. For insurance purposes, qualified drivers must be registered with Transportation and Traffic Management (TTM) prior to use of a state vehicle using the Drivers Registration Form.

- Smoking is not permitted in any university vehicle at any time.
- The use of cell phones while driving is prohibited.
- Only authorized, faculty, staff, students or guests of the university may ride in university vehicles.
- University vehicles are to be housed on University property when not in use or without pre-authorization from a Vice President or Dean.

DRIVER QUALIFICATIONS

Only persons possessing a valid and appropriate driver's license, meeting the standards outlined in the Vehicle Acquisition and Use Policy # 2.72, and who have department authorization by the department may operate a university owned or leased vehicle. It shall be the responsibility of the department to ensure that drivers meet the required qualifications outlined below:

- 18 years of age or older (Daily rentals through Vehicle Rental or other rental companies may require a higher age limit).
- Valid United States or Canadian drivers license.
- Driver must be a faculty, staff or student employee of the university or working in an official capacity for the department.

INSURANCE AND ACCIDENT REPORTING

Any university vehicle, no matter how acquired, that is involved in an accident must complete an accident report with the local authorities. An accident is defined as anything causing damage to persons or property. Departments are required to report all accidents to TTM as soon as possible after the accident, or by the following business day of the incident. TTM will process all claims for University vehicles. Departments may not authorize non-emergency repairs for vehicles involved in accidents until they receive approval from TTM.

NON-UNIVERSITY DRIVING

Personal use of a state-owned/leased or operated vehicle is against university policy unless prior authorization has been provided by the appropriate Vice President or Dean. A letter authorizing non-university business use may be attached to this form and must be signed by the Vice President or Dean stating reasons and restrictions for this privilege.

IRS regulations require that the university include imputed income on an individual's W-4 for personal use of a University vehicle. All mileage for non-University business use must be reported by the driver to the Office of Human Resources.
